

Steering Box Part Numbers

Contributed By: Bill B Minnich

I did a little checking around & found seal kits for the steering gear box on my GW. I thought I'd post my findings on the list for other interested leak owners.

NAPAs books show three kits;

lower seal kit	NAPA part # 7360	\$11.69	
Pitman arm shaft complete seal kit	NAPA part # 7205	\$11.69	
steering shaft & pitman major seal kit	NAPA part # 7181	\$32.49	both seals + internal gaskets & stuff.

See? they're not that hard to find, Happy motoring.
